5d-1	Data collection and research analysis capacity dedicated to housing data.	Alliance was working to develop a “Data Dashboard”, but this has been removed from the Service Agreement due to a lack of a coordinated data system. This will become increasingly important for the CRD to deliver as it is related to obligations under Reaching Home while also likely including a much broader scope that may touch on housing supply and construction data elements. This is expected to be scoped out in 2024 with implementation anticipated to begin in 2025/26.
