**REPORT TO STICKS ALLISON WATER LOCAL SERVICE COMMITTEE
MEETING OF JUNE 25, 2026**

SUBJECT Sticks Allison Water System 2026 Mid-Year Capital Projects and Operational Update

ISSUE SUMMARY

To provide the Sticks Allison Water Local Service Committee with capital project status reports and operational updates.

BACKGROUND

The Sticks Allison Water System is located on the north shore of Galiano Island in the Southern Gulf Islands Electoral Area and provides drinking water to approximately 37 customers. Capital Regional District (CRD) Infrastructure and Water Services is responsible for the overall operation of the water system with day-to-day operation, design and construction of water system facilities provided by the CRD Infrastructure Planning and Engineering and Infrastructure Water Operations divisions. The quality of drinking water provided to customers in the Sticks Allison Water System is overseen by the CRD Water Quality division.

Capital Project Update

22-01 | Service Line Replacement (Provisional)

Total Budget: \$5000

Project Description: Placeholder budget available to replace failed/leaking water service lines if/when required.

Project Rationale: Funds are required to address potential water service leaks promptly if identified. This funding is considered provisional and will only be utilized if leaks are identified.

Project Update and Milestones:

Milestone	Completion Date
Operations will utilize funds to replace failed or leaking service lines.	As and when needed basis.

Operational Update

This is an operational update for the reporting period January through May 2026.

- Regular operations and maintenance during this reporting period including the following preventative maintenance activities:
 - Clean and inspect chlorine tank and equipment
 - Distribution main valve exercising
 - Chlorine probe calibration
 - Annual hydrant maintenance and air valve inspections
 - Operations responded to multiple communications failures. SCADA equipment

- was reset and returned to service.
- Installation, programming, and commissioning of new ultraviolet (UV) disinfection system.

RECOMMENDATION
