03 Operating Context

FACTORS THAT WILL AFFECT OUR OPERATIONS IN 2025 AND BEYOND

- Increased frequency of emergency incidents requiring dedicated staff time, such as wildfire, drought, heat wave, atmospheric rivers, and other operational incidents. Incident frequency impacts the capacity to address work plan and service plan priorities.
- Increased public expectation for governmental assistance and timely communications during emergency events, including services outside existing program mandates.
- The new BC *Emergency and Disaster Management Act* and pending regulations will require review of CRD resources and emergency plans that will be required to ensure alignment with new legislation.
- Shifting regulatory framework for fire services continues to evolve and the new *Fire Safety Act* was released in August 2024. This will prompt increased staff operational support and a review of existing fire service delivery models and potential liabilities.
- Increased provincial regulatory standards for volunteer fire services that are consistent with career fire departments are compounding challenges in recruiting and retaining volunteers (can be an existential crisis for some services).
- Increased engagement and consultation in emergency management with First Nation is a requirement of the new *Act*. Capacity issues arise with increased government-to-government coordination requirements with First Nations.
- The CRD's Emergency Hazmat Team was reviewed in 2024 and the report will lead to changes to ensure program effectiveness, cost efficiency and compliance with current standards.
- The evolution to Next Generation 911 will result in increased operational and financial obligations.
- The province is supporting many new grant initiatives in response to new legislation and risk reduction. This significantly increases staff workload beyond current capacity to manage grant administration requirements.
- Bylaw call demand increasing significantly beyond resourced capacity and is further impacted by changing regulatory environment and public expectations.
- Increased responsibility for Electoral Areas Emergency Program volunteers and aging volunteer base jeopardizing emergency program continuity and effectiveness.
- Aging animal shelter infrastructure is requiring that decisions on renovation versus new building occur soon.

06 Performance

GOAL 9A: EFFECTIVE EMERGENCY MANAGEMENT

Targets & Benchmarks

Collectively the performance measures highlight how effectively the CRD is managing its services and creating effective regional cooperation to protect public safety and preparing for, responding to, and recovering from emergencies.

Measuring Progress

Ref	Performance Measure(s)	Type	2023 Actual	2024 Forecast	2025 Target	Desired trend
1	Emergency response time: 911 ¹	Quality	95%	95%	95%	↗
2	Emergency response time: Fire Dispatch ²	Quality	90%	90%	90%	↗
3	Number of EOC exercises conducted annually ³	Quantity	2	2	2	→

¹ Data from E-comm

² Data from CRD Fire Dispatch

³ Data from CRD Protective Services

Discussion

- › Measure 1 reports on the emergency response time for 911 call answer consistent with contractual target to answer 95% of calls within five seconds.
- › Measure 2 reports on the emergency response time for fire dispatch call answer consistent with contractual target to answer 90% of calls within 15 seconds.
- › Measure 3 addresses corporate readiness to meet the expectations of Goal 9A: Effective Emergency Management through exercising the EOC to ensure operational effectiveness.

07 Business Model

PARTICIPANTS All municipalities, all Electoral Areas and First Nations participate in some aspect of the regional or sub-regional services.

FUNDING SOURCES 911 Call Answer is funded by a Call-Answer Levy collected from all telephone landline service providers within the capital region, and by requisition.

All other services are funded by requisition, fee for service and/or grants.
