

CREST

CONNECTED FOR SAFETY

Key information about our region's
emergency communications provider

WHY CREST?

- A wide range of entities use the CREST system because they need to interoperate together.
- Having a single entity dedicated to providing secure reliable public safety grade communications is cost effective & the safest option.
- 8 highly trained electrical engineers and communication technicians, available 24/7, manage the 3,000 radios on the system and the 7 dispatch centers equipment.

Annual levy increases to user agencies
on the CREST system

Average Annual Increase

	CREST Levy	CPI
2016-2023	2.90%	2.86%

CREST SYSTEM 2024

A tall, slender green tower stands vertically in a forest of pine trees. The tower is positioned in the center of the frame, extending from the lower middle ground up to the top edge. It has a small platform or cabin near its base, partially obscured by the trees. The surrounding landscape is a mix of green pine trees and dry, yellowish-brown grass on a sloping hillside. The sky is a clear, bright blue. The text "Comments - Questions?" is overlaid in the center of the image in a bold, yellow, sans-serif font.
