Evaluation Criteria:

The CRD Board may consider the following when reviewing an application for an antenna system:

- 1. Rationale for proposed location;
- 2. Proximity to residential uses, institutions and public lands;
- 3. Visibility and measures to integrate the antenna system into the local surroundings;
- 4. Security measures;
- 5. Alternatives and/or mitigation measures;
- 6. Hazardous areas;
- 7. Environmentally sensitive areas;
- 8. Transport Canada's aeronautical safety requirements;
- 9. Referral responses including compliance with BC Building Code, if applicable;
- 10. Comments received through public notification;
- 11. Potential impact on the community if the application is approved.
- 12. Designs that address the following guidelines:
 - i) antenna systems are as unobtrusive and inconspicuous as possible;
 - ii) the visual aesthetic impacts on the community is minimized;
 - iii) landscaping or screening is incorporated;

iv) displays of any type of lighting are avoided except where required by Transport Canada. Where lighting is proposed for security reasons, it shall be shielded from adjacent properties and kept to a minimum intensity by being of capped, downward facing and motion-sensory designs;

v) antenna systems are set back at least three times the height of the antenna system from adjacent dwellings. The CRD may request a different setback due to factors such as buffering topography and vegetation, transportation and utility corridors, watercourses, or public comments.
