Reporting Back on Collaborative Action Regional Boats Workshop

The Environmental Services Committee recommends to the Capital Regional District Board:

1. That staff bring back a report that considers expanding the core area harbours service to a regional service, including costs and resourcing requirements;
2. That the report, *What We Heard Summary Report: Regional Workshop: Collaborative Action to Resolve Boat-Related Issues in the Capital Region*, be provided to local governments and First Nations in the capital region for consideration; and
3. That the CRD Board continue to advocate to the provincial and federal governments to take a leadership role in developing a coast-wide solution that will support local governments.
