Transportation Gap Summary

[At the February 24, 2021 Transportation Committee meeting, the committee defeated the following motion arising which was referred from the CRD Board:

That the Board express its support for Union of BC Municipalities Resolution B143 - Shifting Investment to Low-Emission Transportation which passed at the 2019 convention, and request that staff consider the commitment in the Pan-Canadian framework on clean growth and climate change, to shift investments "from higher to lower-emitting types of transportation" in their work.]

That the Capital Regional District Board receive this report for information. (NWA)
