Transportation Priorities Implementation Strategies

[At the June 16, 2021 Environmental Services Committee, the following recommendation carried as amended:]

The Transportation Committee recommends to the Capital Regional District Board:

1. That staff be directed to form a Transportation Advisory Committee, reporting through the Transportation Committee, with senior staff representation from CRD, municipal, electoral area and agency partners to advise on regional transportation matters requiring coordination;
2. That staff be given the mandate to develop a region-wide approach to transportation demand management, safety policy and implementation of a connected and consistent regional trail network, working through the Transportation Advisory Committee; and
3. That staff be directed to advance advocacy and other implementation actions, as set out in Appendix B, amended to expand the scope of the 'parking and access upgrades' action to encompass access to parks via active transportation and transit and rename it parks access.
